

## Statement of SRI BHAGAVAN

Dear Friends,

I, Bhagavan, in deep distress and pain have to break this sad news to you. Krishna, the 3 senior guides (Anandagiri, Samadarshini and Vimalakeerthi) and the overseas guides have broken away from the Oneness Movement.

They have neither sort my permission nor do they have my blessings and have done this against my wishes. While claiming to be with Amma Bhagavan, they are doing things not in line with our thinking. This is a grave set back for our mission of 2012.

What Amma Bhagavan want are the following:

1. All courses must be made either free or charged only to the extent of covering the expenses. The movement should not make any profit through its courses or any of its activities. Money and spirituality do not go well together and eventually ONENESS would be destroyed.
2. The Oneness Trainers must themselves be trained to conduct the Living in Oneness programmes and the Level-1 and Level-2 programmes in their respective countries. The senior guides and the other guides must only be involved in training the trainers and not conducting the courses themselves. All the remittances collected should only be shared between the trainers and their local body in order to promote the work. No part of it should go to any other body or used for personal benefit. This would prevent it from becoming a money making Cult.
3. Anybody wanting to meet us should have direct access to us and there should be no intermediaries and conditions attached. People should have easy and free access to us. This way we could help them grow rapidly.
4. After the passing away of Amma Bhagavan, there should neither be a successor nor successors and no organized spiritual structure left behind. This would prevent it from becoming another CULT. Let ONENESS live in the hearts of millions of people and not in an organized structure of hierarchies. Man has been repeating this mistake time and again.
5. Our vision has always been to set man totally and unconditionally free. Let not ONENESS yet again bind millions of people through its structures, through its hierarchies and through moneymaking activities.

Help me to keep this vision alive.

- Bhagavan
